

To help life run smoothly in today's busy world, it has become almost a necessity to employ an extra set of hands in the home. Parents need someone they can trust and get to know on a personal level to take care of their most precious possessions when they are not available. Whether that be whilst they are at work or perhaps enjoying a rare few hours to themselves! Through our intensive interviewing and 'match making' process, a solid relationship between the parent and nanny is established. Not only then do you have happy healthy delightful children, but you are more organized, lead a higher quality of life, and therefore undoubtedly become a better, more relaxed parent.

Why Tiny Delights?

- With 10 years of first hand experience in the nanny industry, we know what to look for in a professional nanny
- All nannies have a minimum of 2yrs paid child care experience. Looking after nieces, nephews or siblings is not sufficient enough experience.
- Majority of our nannies hold child care qualifications
- All nannies hold Blue Cards
- All nannies hold First Aid and CPR Certificates
- All nannies have had at least two child care related references checked and have been interviewed face to face
- We carry out biannual checks to ensure all nannies are up to date with First Aid/CPR and hold a current blue card
- We use behavioral interviewing techniques to assess how each nanny communicates with children and how she would deal with a variety of challenging situations that may occur when working with children
- We offer a 6wk guarantee on permanent placements and full phone support should you require advice
- We provide you with a professional family pack full of advice on contracts, interviewing tips etc
- We support nannies in an industry that is poorly regulated and often ends up in many nannies being taken advantage of
- We do deduct money from the nannies hourly rate
